

GLRI Funding for Land Acquisition

CELCP: FY10-15

- 15 awards
- \$10.4M in funding
- ~2700 acres (*proposed*)

AOC: 2011-2015

- 13 awards
- \$2.87M in funding
- ~666 acres (*proposed*)

FY16 CELCP Competition

- FFO Open - Late Oct 2015 thru January 29, 2016.
- Total funding of ~\$1.5-\$2M.
- Each State may submit up to 4 projects
- Max project size \$1.5M federal.
- Priority given to projects in priority GLRI habitats (esp. wetlands and shoreline) and that contribute to AOC delisting.

Bear Creek Project

Bosma Project Site

CELCP and RC (DU Partnership)

RC in Muskegon Lake: ARRA to the GLRI

Before

After

American Recovery and Reinvestment Act (2009)

Performance Measures:

- 32.3 acres restored wetlands (vs. 23.6 ac)
- 13,073 linear ft shoreline restored (vs. 10,007 lf)
- >208,00 metric tons (vs. 182,862 mt)

Mill Debris Legacy

January 2013

- Slabwood
- Sawdust
- Bark

July 2013

Bear Lake Wetland Restoration Project

NOAA's Habitat Blueprint: Muskegon Lake HFA

“...NMFS is making a concerted effort to focus elements of our habitat science and conservation efforts and to increase collaboration and integration across NOAA programs and partner organizations to achieve measurable habitat outcomes.”

- Brian Pawlak, Acting Director NOAA's Office of Habitat Conservation (in 2013)

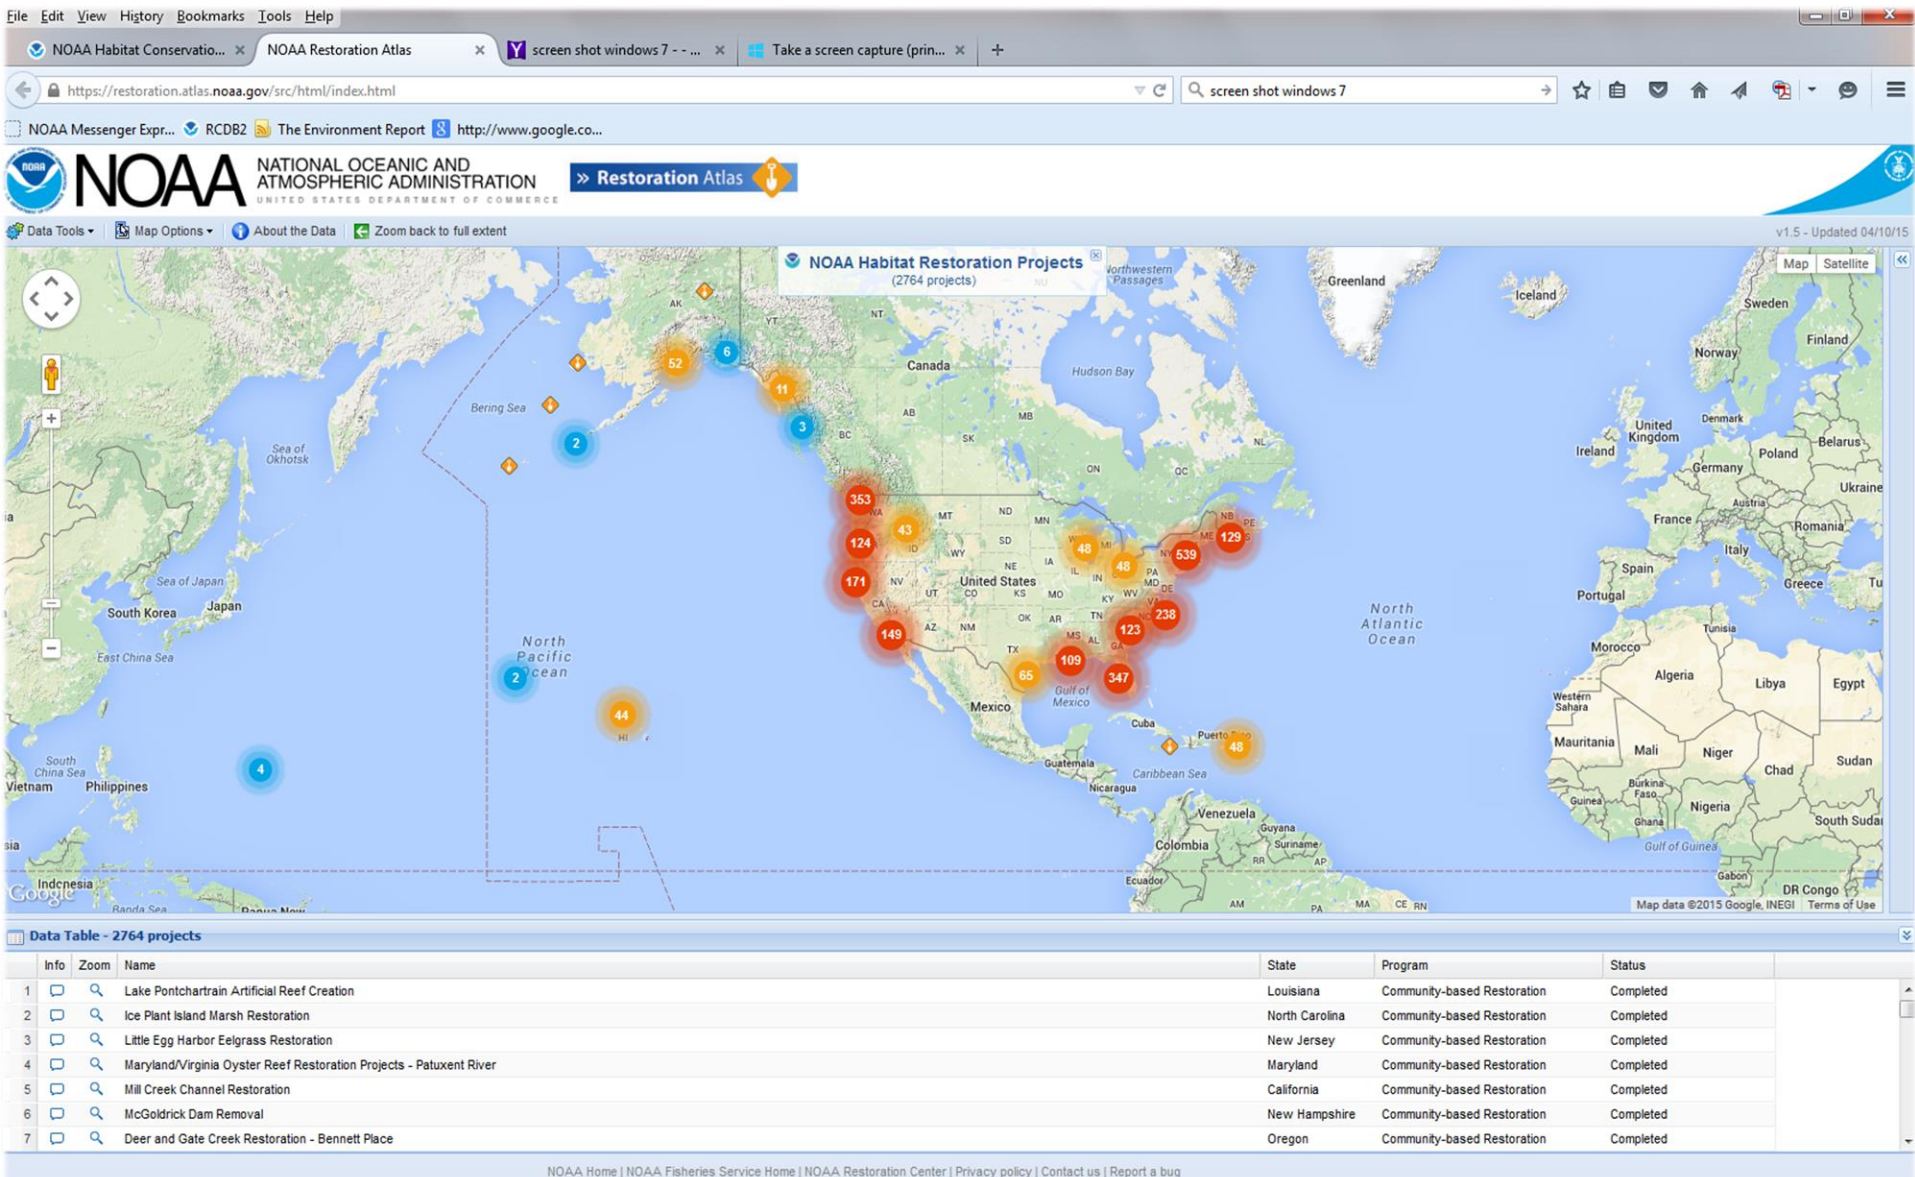

RC in the Great Lakes since 2007 (~\$87 million)

- **restore more than 6,000 acres of habitat for fish and wildlife**
- **remove almost 210,000 metric tons* of waste and demolition material**
- **open more than 780 miles of river for fish passage.**

*** Closer to 350,000 MT**
